

THE FACILITIES GAP:

Budget, Delays and the Road Ahead for School Districts

District Administration partnered with Gordian to survey K-12 leaders on the state of facilities operations and management. Nearly 300 leaders responded from a variety of districts.

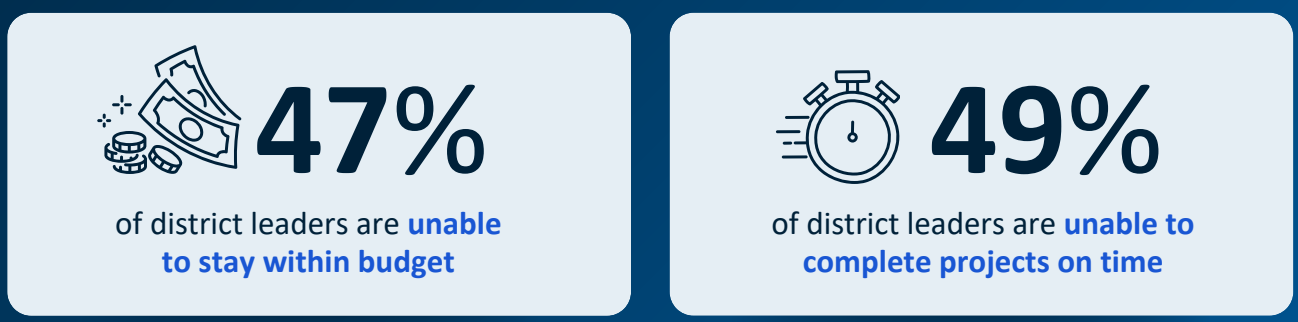

TODAY

The Top Obstacles to Completing Facilities Projects

What's the Result?

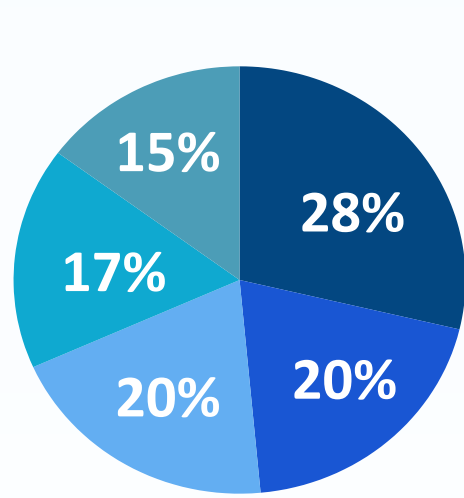

* Combines 27% sometimes, 15% rarely, and 5% never

* Combines 26% sometimes, 19% rarely, and 4% never

TOMORROW

Top Ways Districts Are Preparing for Facility Demands in the Next 5-10 Years

The Most Crucial Projects in the Next 3-5 Years

- HVAC and major building systems upgrades
- Roofing and structural repairs
- Classroom modernization and technology upgrades
- Safety and security enhancements (access control, cameras, entry redesign)
- Other

What District Leaders Need

From Planning to Delivery

- ✓ **Predictable project delivery**
Streamlined approvals, reduced delays, improved timelines
- ✓ **Greater visibility into costs and risks**
Data-driven forecasting, early risk detection
- ✓ **Integrated funding + facilities strategies**
Align capital planning, budgeting and project management
- ✓ **Stronger long-range planning tied to execution**
Clear roadmap from plan → budget → implementation

What's the Solution?

Gordian's capital planning and project procurement solutions for K-12 help you budget, build and maintain safe and resilient learning environments, ensuring your school is ready for what's next.
